

## SUPPORTING YOUNG PEOPLE ONLINE

Our Lunch and Learn seminar consists of a presentation entitled '**Supporting Young People Online**'. The Childnet team aim to equip parents and carers with the **knowledge** on how to protect their children online and empower them with **practical advice** to implement in their children's online lives.

These sessions are an excellent way for organisations to offer their parent community additional training benefits during the working day so they are able to share online safety messages with their children to encourage the positive use of the internet at home and at school.
