

# SUPPORTING YOU AND YOUR PUPILS ONLINE

Childnet's staff sessions discuss the many positives of the internet and look at the most popular sites and services being used by children and young people today. We **discuss online safety issues** that may be affecting your school community and give out relevant advice. The presentation **highlights resources** that can be used to teach pupils about online safety, and provides advice on the importance of **protecting your professional reputation**.

With **Ofsted** increasingly focussing on online safety, and the importance of digital literacy, these sessions provide an ideal way to support the continuing professional development of all school staff in this area.
